Dear Ryan:

Hope all is well.

Many thanks for your productive remarks during today's breakfast at the Bipartisan Policy Center.

As mentioned, infrastructure is among our top priorities at the Chamber. We would be pleased to brief you and your team on our suggestions and potential opportunities to collaborate, especially focused on water.

Last August, the Chamber elevated water as a priority by launching our Business Task Force on Water Policy, composed of member companies across a variety of sectors, state and local chambers, and trade associations. We are developing a summary of proposed policy solutions, which I will share in the coming weeks. Issues of interest could include: funding for AWIA's new programs, mobilizing private capital and public-private partnerships, promoting alternative stormwater compliance options (e.g., green infrastructure, reuse, and water quality trading), and addressing small community water challenges.

In the meantime, please feel free to contact me with any questions or if I can ever be of service.

All the best, and I look forward to following-up,

Chuck
